INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners of
County of Carroll, New Hampshire
Ossipee, New Hampshire

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County of Carroll, New Hampshire, as of and for the year ended December 31, 2010, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective net position of each major governmental fund and the aggregate remaining fund information of the County of Carroll, New Hampshire, as of December 31, 2010, and the respective changes in net position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3.1 through 3.6 and 32 through 33 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

In New Hampshire, counties are intermediate units of government, not as close to the people as town government, but less distant than the State. Counties perform services which work best when designed to meet local needs, but which are too expensive or too difficult for the towns to provide.

County government has an executive branch, consisting of three elected County Commissioners who jointly serve as the County's chief executive, and four elected department heads: the County Attorney, the Sheriff, the Register of Deeds, and the Treasurer. County elections are held biennially during even-numbered years. Commissioners are from individual districts, but all the county officials are elected countywide.

The legislative branch of county government, consisting of all State Representatives from the county (14 in Carroll County) is called the County Legislative Delegation. The County Delegation adopts an annual county budget which raises revenues and appropriates funds for county departments and programs. Carroll County has a budget of \$23,299,370 for the Fiscal Year of 2010, with \$13,088,625 raised by property taxes. The Delegation meets with the Commissioners quarterly to review the County's financial reports.

REPORTING THE MOST SIGNIFICANT FUNDS OF THE COUNTY

The Government Accounting Standards Board (GASB) has initiated standards for reporting municipal financial activities each year. The standard, GASB No. 34, requires a County to report the activity in its most significant funds. Those funds are determined by the application of a defined test to the County's activity.

Carroll County currently has two significant funds to be reported. They include the following:

General Fund (Government Activities): the majority of County spending is reported as General Fund expenditures. These expenditures reflect the spending of all County departments except the Nursing Home. Expenses in this category include the expenditures of the Department of Corrections, Farm, Sewer, Water Department, Registry of Deeds, Sheriff's Office, County Attorney, Health and Human Services, Delegation, Conservation District, Home and Health Care, and all Administrative Departments.

Enterprise Fund (Business-type activities): The revenue and expenditures of the Carroll County Nursing Home are isolated in a special fund (Enterprise Fund) that has been established for this purpose. Since a significant amount of expense is reimbursed (in

whole or in part) by federal and state agencies, it is critical to isolate the financial activity at the Nursing Home in this special fund.

FUND FINANCIAL STATEMENTS

A fund is an accounting entity with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The County divides its funds into three categories: governmental funds, proprietary funds and fiduciary funds.

Government Funds: Most basic services provided by the County are financed and accounted for through governmental funds. Governmental fund financial statements focus on current inflows and outflows of spendable resources, as well as the available balances of these resources at the end of the fiscal year. This information is useful in determining the County's financing requirements for the subsequent fiscal period. Governmental funds use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Because the focus of governmental funds is for the current period, it is useful to compare this information to the data presented in the government-wide financial statements. Readers may better understand the long-term impact of the County's current financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County has four individual governmental funds: General, Incentive, Registry of Deeds and Capital Reserve funds. Of these, the General fund is the only one that is considered a major fund, and is presented in separate columns on the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance.

Proprietary Fund: This fund, Mountain View Nursing Home, is used to show activities that operate similar to private business enterprises. Because these funds charge fees for services provided, they are known as enterprise funds. Proprietary fund financial statements use the economic resources measurement focus and the accrual basis of accounting, like the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

Fiduciary Funds: These funds are used to account for resources held for the benefit of parties outside of Carroll County. The fiduciary funds are not reflected in the government-wide financial statements because the assets of these funds are not available to support the activities of the County. The economic resources management focuses and

accrual basis of accounting is used for fiduciary funds, the same as that is used for the proprietary funds.

The County's only fiduciary funds are the agency funds for the inmate savings, Register of Deeds, Nursing Home patient funds and Gift Cart Fund, Employee Benefit Fund and Sheriff Escrow funds.

Notes to the Financial Statements: The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found following the fund financial statements.

Other Information: Additional schedules can be found immediately following the notes to the financial statements. These include the combining statements for the nonmajor funds and a schedule of budget to actual comparisons.

STATEMENT OF NET ASSETS

The Statement of Net Assets reports information about the County as a whole. This statement includes all of the assets of the County using the accrual basis of accounting, which is similar to the accounting method used by most private-sector companies. All current year revenue and expenditures are taken into account regardless of when the cash is received, or paid.

This report reflects the difference between the County's assets and liabilities. This is one way to measure the financial health of the County. Over time, increases or decreases in the net assets of the County are an indicator of whether the financial health of the County is improving or deteriorating. In the case of Carroll County the assets exceeded liabilities by \$11,550,240 for the fiscal year ended December 31, 2010

A portion of the County's net assets, (\$9,370,140 or 81 percent), reflects its investments in capital assets, (e.g., land, buildings and equipment), less any related debt used to acquire those assets that are still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investments in capital assets is reported net of related debt, it should be noted that the resources needed to repay any debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A portion of the net assets, restricted net assets, (\$186,221 or 2%) is for Juvenile Incentive, Deeds Surcharge, Capital Reserves and Expendable Funds.

The remaining portion of net assets, unrestricted net assets (\$1,993,879 or 17%) represents an additional component of total net assets. This balance displays the financial strength of the County.

The statement below reflects the County's Net Assets as of December 31, 2010.

CHANGES IN NET POSITION

During fiscal year 2010 Carroll County generated \$24,440,008 in overall revenue. This was comprised of \$14,778,346 in general revenue and \$9,661,662 in revenue from business-type activities. Total expenditures were \$23,075,764; \$11,952,661 in general expenses and \$11,123,103 in business-type expenses.

The largest source of general revenue for the County is County Taxes, which were \$13,299,514.

The cost of governmental activities for the fiscal year ended 12/31/10 was \$11,952,661. The programs that were the most costly were Human Services \$2,790,181, Public Safety (which includes the Sheriff's Department and Dispatch Center) \$2,520,535 and the County Jail \$3,469,877. The funding for these programs came from County Taxes of \$13,299,514. Other programs funded by General Government include County Attorney, Registry of Deeds, Water Works, Sewer System, Farm, Regional Appropriations, Cooperative Extension and all administrative departments.

Business-type Activities: The Carroll County Nursing Home (Mountain View Nursing Home) functions as a business-type activity (Enterprise fund). Revenue is generated through the care of residents. The total revenue was \$9,661,662. Overall expenses for the Nursing Home \$11,123,103. Expenditures for the Nursing Home include salary and benefits for the county employees caring for the residents, along with operating expenses associated with running the Nursing Home.

FINANCIAL ANALYSIS OF COUNTY FUNDS

County's Budgetary Highlights:

At the end of the year, general fund actual revenues were \$14,431,927, \$156,177 less than budgeted. Actual expenditures were \$11,976,579, \$535,388 less than had been

budgeted contributing to Excess if Revenues Over (Under) Expenditures for a total of \$379,211.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets:

The County's investment in capital assets for general and business-type activities as of December 31, 2010, was \$22,719,549 (net of depreciation) \$9,370,140 (net of related debt). This investment of capital assets includes land and improvements, buildings and improvements, wastewater and water systems, furniture, equipment and vehicles.

Long-term Debt:

Governmental Activities:

At year-end, the County had \$4,450,939 in bond obligations, State of New Hampshire Revolving loan and public improvement bond, this is due to the Jail Construction Bond, Wastewater System and Water System construction and capital projects.

Business-Type Activities:

At year-end the County had \$23,500,000 in bond obligations for the construction of the new Mountain View Nursing Home. The bond will mature August 2030.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The overall County Budgeted expenditures are expected to increase 10.25% to \$25,687,243. The largest increase is due to the Mountain View Nursing Home Bond payment of \$2,004,844. Other increases to the budget are due to wage and benefit increases and Human Services.

Request for Information

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or request for additional information should be addressed to the Carroll County Commissioners, P. O. Box 152, Ossipee, NH 03864.

COUNTY OF CARROLL, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Carroll is a “body corporate” under the authority of the New Hampshire Revised Statute Annotated (RSA) 23:1. The elected County Commissioners are responsible for the day to day operation of the County.

Part 1 - Government-Wide Financial Statements

The statement of net position and statement of activities focuses on the primary government of the County of Carroll, New Hampshire as a whole. All governmental funds are included but are presented using the accrual basis of accounting. Fiduciary funds are excluded from these government-wide financial statements.

Measurement Focus and Basis of Accounting

The statement of net position and the statement of activities are prepared using the economic resources measurement focus and the accrual basis of accounting.

Internal Activity

Amounts reported in the governmental funds as “due to other funds” and “due from other funds” have been eliminated in the statement of net position, except amounts due between the governmental and business-type activities. Any amounts that are “due to” or “due from” the fiduciary funds have been included in the statement of net assets.

Capitalization of Assets

Governmental Funds

Fixed assets are valued at historical cost or estimated historical cost. Donated fixed assets are valued at their estimated fair value on the date of donation. Fixed assets are capitalized if over \$5,000.

Business-type Activities Funds

Fixed assets are valued at historical cost or estimated historical cost. Donated fixed assets are valued at their estimated fair value on the date of donation. Fixed assets are capitalized if over \$500.

COUNTY OF CARROLL, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Depreciation

Governmental Funds

Fixed assets are depreciated over their useful lives using the straight-line method. The estimated useful lives are as follows:

Buildings	10-40 years
Improvements	10-40 years
Wastewater & Water Systems	50 years
Equipment & Vehicles	5-20 years

Part 2 - Fund Financial Statements

Principles Determining Scope of Reporting Entity

The financial statements of the County consist of the funds and account groups of the County and Hales Location. The County has oversight responsibility for Hales Location since Hales Location has no elected governing body. Control or dependence is determined on the basis of budget adoption, taxing authority, funding, and appointment of the respective governing board.

Fund Accounting

The accounts of the County are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped, in the financial statements in this report, into generic fund types and broad fund categories, as follows:

Governmental Funds

General Fund - The General Fund is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.

Other Governmental Funds - The County has five nonmajor funds.

COUNTY OF CARROLL, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Proprietary Funds

The County's Nursing Home fund accounts for the activities of the County Nursing Home. The fund accounts for the operation and maintenance of the Nursing Home, which provides intermediate nursing care to the elderly residents of the County. The Home is funded through a combination of Medicare funds from the Federal Government, Medicaid funds from the State, and transfers in from the County, as well as, from the private resources of the residents of the Nursing Home.

Fiduciary Funds

Trust and Agency Funds - Trust and Agency Funds are used to account for assets received by the County and held in the capacity of a trustee, custodian, or agent.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental, trust and agency funds are accounted for using the modified accrual basis of accounting. Their revenues are recognized when they become measurable and available as net current assets. Property taxes are recorded as revenue when levied even though a portion of the taxes may be collected in subsequent years. Miscellaneous revenues are recorded when received in cash because they are generally not measurable until actually received. Intergovernmental revenues and interest income are accrued when their receipt occurs soon enough after the end of the accounting period so as to be both measurable and available.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Exceptions to the general rule include principal and interest on general long-term debt, which is recognized when due.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reporting amounts of assets and liabilities and disclosures. Accordingly, actual results could differ from those estimates.

None of the estimates used in preparing the financial statements are considered significant.

COUNTY OF CARROLL, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budget

A. Budget Law and Practice

The County commissioners submit, in the previous December, an annual budget to the County Delegation in accordance with the New Hampshire Revised Statutes Annotated. In March, the County Delegation adopts an annual budget for the current calendar year. Supplemental budgets are required for unexpected modifications to the estimated revenues and appropriations. Budgets are prepared on the modified accrual basis of accounting. Unencumbered, non-special, appropriations lapse at year end. Capital projects funds are carried forward each year until the project is completed or when the bond issue proceeds are totally expended.

B. Budgetary Control

An all inclusive budget is prepared in gross on a line item basis. Revenues are budgeted by source. Expenditures are budgeted by department and class. This constitutes the legal level of control. Expenditures may not exceed appropriations at this level. Within these control levels, the commissioners may transfer appropriations, otherwise the Executive Committee of the County Delegation must approve the transfer. Several revisions were made to the budget during the year.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from balances outstanding at year-end. Allowances for uncollectible accounts are based on management's assessment of the periodic aging of accounts receivable.

Due From Other Governments

Due from other governments are stated at the amount management expects to collect from balances outstanding at year-end. Allowances for uncollectible accounts are based on management's assessment of the periodic aging of accounts due from other governments.

Investments

It is the County's policy to state investments at market value at the balance sheet date.

Excess Funds

There is no documented policy on where to hold excess funds.

COUNTY OF CARROLL, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Inventories

For government-wide financial statements, inventories are priced at the lower of cost or market on the first-in, first out basis. For fund financial statements, inventories are accounted for utilizing the purchase method. Under this method, inventories are recorded as expenditures when consumed rather than when purchased.

Interfund Receivables and Payables

Interfund activity is reported as either loans or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. All other interfund transactions are treated as transfers. Transfers between governmental funds are netted as part of the reconciliation to the government-wide financial statements.

Fund Balance

For governmental funds, the nonspendable fund balances represent amounts that will never convert to cash or will not convert to cash to affect the current period; the restricted fund balances represent the amounts that are restricted by external governments, contributors, or external laws; the committed fund balances represent self-imposed limitations by the County that must be voted on to be established, modified, or rescinded; the assigned fund balances represent intended use of resources such as encumbrances by the Commissioners that the Commissioners feel are necessary to operate the County; and the unassigned fund balances represent anything that does not fit into the above four classifications.

If expenditures can be applied to either restricted or unrestricted balances, the government's policy is to apply them to restricted balances. If expenditures can be applied to committed, assigned or unassigned, the government's policy is to apply them first to committed balances, then to assigned balances, and any remainder is to be applied to unassigned balances.

Revenues

Tax revenue and other major county revenue sources are susceptible to accrual under the modified accrual basis of accounting. Property tax revenues are collected by the towns and cities in the County in December on an annual calendar year basis.

COUNTY OF CARROLL, NEW HAMPSHIRE
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010

NOTE 2 - CASH AND INVESTMENTS

The total amount of the County's cash, as well as the County's investments, consists of the following at December 31, 2010:

Cash	\$ 18,842,364
------	---------------

Temporary investments are stated at fair value (quoted market price or best available estimate).

Per state statutes, the County Treasurer has custody of all money belonging to the County and shall pay out the same only upon orders of the County Commissioners. The Treasurer shall deposit all such moneys in participation units in the public deposit investment pool established pursuant to New Hampshire Public Laws - RSA 383:22 or in solvent banks within the state. Moneys may be deposited in banks outside the state if such banks pledge and deliver to a third party custodian bank or the Federal Reserve Bank collateral security for such deposits, United States government or government agency obligations or State of New Hampshire obligations in value at least equal to the deposits amounts. Per state statutes, whenever the County Treasurer has in custody an excess of funds, which are not immediately needed for the purpose of expenditure, the Treasurer shall, under the annual investment policy adopted with the County Commissioners, invest excess funds in obligations of the United States Government; in the public deposit investment pool established pursuant to New Hampshire Public Laws - RSA 383:22, in savings bank deposits of banks incorporated under the laws of the State of New Hampshire, or in certificates of deposits and repurchase agreements of banks incorporated under the laws of the State of New Hampshire or in banks recognized by the state treasurer.

The receiver of such public funds to be deposited or to be invested in securities shall, prior to acceptance of such funds, provide a collateralization option (represented by exclusively segregated securities defined by the Bank Commissioner as qualifying under New Hampshire Public Laws - RSA 386:57) for such funds in an amount at least equal to the amount to be deposited or invested in securities. The New Hampshire Public Deposit Investment Pool issues a publicly available financial report that may be obtained by visiting www.nhpdp.com.

The total amount of the County's deposits in financial institutions, per the bank statements, at December 31, 2010 was \$3,095,176, of which \$250,000, was covered by federal depository insurance. The remaining deposits were collateralized by a Stand-by Letter of Credit with the Federal Home Loan Bank of Pittsburgh.

NOTE 12 - EMPLOYEE BENEFIT PLANS

NEW HAMPSHIRE RETIREMENT SYSTEM

A. Plan Description

County employees contribute to the New Hampshire Retirement System (NHRS), a contributory defined benefit public employee pension plan that acts as a common investment and administrator for its participants.

The NHRS provides retirement, annual cost-of-living adjustments, death and disability benefits to members and beneficiaries. These benefit provisions and all other requirements are established by state statute. The NHRS issues a publicly available financial report that includes financial statements and required supplementary information for the system. That report may be obtained by writing to New Hampshire Retirement System, 54 Regional Drive, Concord, New Hampshire, 03301-8507.

B. Funding Policy

The contribution requirements of plan members are established and may be amended by the NHRS. This year, Group I members contributed 5.0% and Group II members contributed 9.3% of gross earnings. The State of New Hampshire and the County are required to contribute the remaining amounts necessary to fund the system, using the actuarial basis specified by the statute. The contribution requirements for the County and the State portion of this requirement for the past three fiscal years were:

	2010	2009	2008
County contribution	\$ 774,280	\$ 763,797	\$ 656,264
State contribution	75,472	112,350	96,509*
Total requirement	<u>\$ 849,752</u>	<u>\$ 876,147</u>	<u>\$ 752,773</u>

* - This number is estimated as it is unavailable as of September 16, 2014, the date of the financial statements were available to be issued.

NOTE 13 - POST - RETIREMENT HEALTH CARE BENEFITS

The County's health care plan is through a public entity risk pool in the State currently operating as a common risk management and insurance program. New Hampshire Public Laws – RSA 100-A:50 requires that the health insurance premiums be rated together ("retired employees shall be deemed to be part of the same group of active employees...for purposes of determining medical insurance premiums"). This results in the County having a community-rated plan. The County requires the retiree to pay 100% of their health insurance premium.

There are currently 167 participants in the health insurance benefit plan of which 2 are retired employees.

NOTE 14 - RISK MANAGEMENT

The County is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The County, along with numerous other municipalities in the State, is a member of three public entity risk pools in the State currently operating as a common risk management and insurance program for which all political subdivision in the State of New Hampshire are eligible to participate. The pools provide coverages for worker's compensation, unemployment, and property liability insurance. As a member of the pools, the County shares in contributing to the cost of and receiving benefits from a self-insured pooled risk management program. Contributions paid for the fiscal year totaled \$253,646 with no unpaid contributions at year-end. There were no deductible claims for the fiscal year.

The pool agreement permits the pool to make additional assessments to members should there be deficiency in pool assets to meet its liabilities. At this time, the pool foresees no likelihood of an additional assessment for past years.

NOTE 15 - COMMITMENTS AND CONTINGENCIES

The County participates in numerous State and Federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the County has not complied with rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at December 31, 2010 may be impaired. In the opinion of the County, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective agents; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

NOTE 16 - NET POSITION AND FUND BALANCE RESTATEMENT

Governmental Activities – Net Position and Governmental Funds – Fund Balance were restated on January 1, 2010 as a result of adjusting the Prepaid Expenses balance. The adjustment decreased Prepaid Expenses by \$206,556 and decreased Net Position – January 1 and Fund Balance – January 1 by \$206,556.

Business-type Activities – Net Position and Proprietary Funds – Fund Net Position were restated on January 1, 2010 as a result of recording an allowance for doubtful accounts. The recording of the allowance decreased Accounts Receivable (net) by \$614,957 and decreased Net Position – January 1 by \$614,957.

NOTE 17 - NET POSITION AND FUND BALANCE RESTATEMENT (CONTINUED)

Governmental Activities – Net position, Governmental Funds – Fund Balance, Business-type Activities – Net Position, and Proprietary Funds – Fund Net Position were restated on January 1, 2010 as a result of transferring the cash account in the Bean, Dube, and Parsons fund to the Nursing Home Fund. The cash account is restricted to the operations of the Nursing Home and cannot be used by the General Government. Therefore, the cash account has been transferred to the Nursing Home. The transfer decreased Governmental Activities – Net Position and Governmental Funds – Fund Balance by \$287,771 and increased Business-type Activities – Net Position and Proprietary Funds – Fund Net Position – January 1 by \$287,771.

NOTE 18 - MANAGEMENT REVIEW

Management has reviewed subsequent events as of September 16, 2014, the date the financial statements were available to be issued. At that time, there were no material subsequent events.
